At Hadar, we know that design is all about people, which is never more true than when it comes to designing and building custom homes. From the day you start with us, to the day we hand over your keys and beyond, your satisfaction is of paramount importance.

With our Grandeur process, we seek to understand who you are and how we can serve you. What are your ideas and what inspires you? Your family dynamics and of course your land, if you have one, will also tell its own story. We arrange to visit the site with you and review ideas. Above all, we never lose sight of the fact that this is your home and you need to fall in love with every inch of it.
